Polyprocess becomes Polynt Process

Dear Customers, Suppliers and Partners,

We are delighted to share an important milestone in the evolution of our company.

Effective **1 November 2026**, **Polyprocess** will become **Polynt Process**. This name change reflects our integration into the Polynt Group, of which we have been a part since May 2024, and reinforces our position within a leading international organization.

While our name is changing, the qualities that define our business remain the same. You will continue to work with the same trusted contacts, the same dedicated teams, and the same reliable organization. Our expertise, commitment to quality, and focus on supporting your success will remain at the core of everything we do.

Since joining the Polynt Group, we have benefited from the strength, resources, and capabilities of a global organization while preserving the local presence, responsiveness, and customer focus that have always distinguished us. Our new identity reflects this reality and further strengthens our ability to support your needs through the combined expertise, experience, and resources of a broader international network.

The reputation and heritage that Polyprocess has built over the years remain a source of great pride and a strong foundation for the future. This change is not a departure from our past, but rather a natural step in our continued development. The values that have contributed to the success of Polyprocess remain unchanged and will continue to guide Polynt Process in the years ahead.

We would like to sincerely thank you for the trust and confidence you have placed in us throughout the years. We look forward to continuing our successful collaboration and building an even stronger partnership under our new identity, **Polynt Process**.

Kind regards,

Enrico Carrea

Président

Polyprocess
